

Colour Match Waiver

This Colour Match Waiver is to be completed if a sample is provided to Superlink Communication and Printing for an order requiring a colour match. Superlink cannot guarantee the colour match of a provided sample alone. Please select one of the following options:

1. USE PROVIDED SAMPLE AS REFERENCE ONLY
<i>We (Superlink) will do our best to match the colour of the provided sample, however we cannot guarantee an exact match.</i>
I understand the purpose of this waiver and authorize Superlink to manufacture the project in question without the use of a printed test disc from Superlink. I understand that there is no guarantee of matching the colour between my provided sample and the final product produced by Superlink.
<u>USE AS REFERENCE ONLY</u> <input type="checkbox"/>

2. REQUEST PRINTED SAMPLE FROM Superlink (ON DISC FACE)
<i>This option will allow the client to approve a test print of a disc before full production.</i>
I request that Superlink run a test print of a disc before moving forward with full production. I understand that that this process will incur a cost of <u>\$250.00</u> in addition to my current purchase order. I also understand that this extra approval step may cause the project's target completion date to be extended.
<u>PRODUCE TEST PRINT ON DISC</u> <i>I authorize the additional charge of <u>\$250.00</u></i> <input type="checkbox"/>

<u>PMS COLOURS</u>
Please provide PMS colour codes (if applicable):
